

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (Original) A vitamin D analog compound selected from the group consisting of (4E,6E)-7-{3-[2-(3,4-bis-hydroxymethylphenyl)-ethyl] phenyl}-3-ethylnona-4,6-dien-3-ol, (E)-6-[3-(3,4-bis-hydroxymethylbenzyloxy)phenyl]-1,1,1-trifluoro-2-trifluoromethyloct-5-en-3-yn-2-ol, (3E,5E)-6-[3-(3,4-bis-hydroxymethylbenzyloxy)-phenyl]-1,1,1-trifluoro-2-trifluoromethylocta-3,5-dien-2-ol, (E)-6-{3-[2-(3,4-bis-hydroxymethylphenyl)ethyl]-phenyl}-1,1,1-trifluoro-2-trifluoromethyloct-5-en-3-yn-2-ol, and (3E,5E)-6-{3-[2-(3,4-bis-hydroxymethylphenyl)-ethyl] phenyl}-1,1,1-trifluoro-2-trifluoromethylocta-3,5-dien-2-ol, and the geometric isomers thereof and these compounds in which one or more of the hydroxyl functions are protected by a protective group $-(C=O)-R$, in which R is a linear or branched alkyl radical having from 1 to 6 carbon atoms, an aryl radical having from 6 to 10 carbon atoms, or an aralkyl radical having from 7 to 11 carbon atoms, the aryl radical or the aralkyl radical optionally being mono- or disubstituted by a hydroxy group, an alkoxy radical having from 1 to 3 carbon atoms, a halogen atom, a nitro function or by an amino function, and mixtures thereof.

2. (Currently amended) The vitamin D analog compound as defined by Claim 1, comprising at least one protective group $[-(C=O)-R]$ $-(C=O)-R$, in which R is a methyl, ethyl, isopropyl, tert-butyl or hexyl radical.

3. (Currently amended) The vitamin D analog compound as defined by Claim 1, comprising at least one protective group $[-(C=O)-R]$ $-(C=O)-R$, in which R is a phenyl or naphthyl radical.

4. (Currently amended) The vitamin D analog compound as defined by Claim 1, comprising at least one protective group $[-(C=O)-R]$ $-(C=O)-R$, in which R is a benzyl or methylnaphthyl radical.

5. (Currently amended) The vitamin D analog compound as defined by Claim 1, comprising at least one protective group $[-(C=O)-R]$ $-(C=O)-R$, in which R is a fluorine, bromine or chlorine atom.

6. (Original) A pharmaceutical composition comprising an effective cell proliferation and differentiation affecting amount of at least one vitamin D analog compound as defined by Claim 1, formulated into a pharmaceutically acceptable support therefor.

7. (Currently amended) The pharmaceutical composition as defined by Claim 6, further comprising at least one of a retinoid, a corticosteroid, an estrogen, an antioxidant, an α -hydroxy acid, a β -hydroxy acid, an α -keto acid or derivative thereof, an ion channel blocker, an immune system affecting active agent, or a mixture thereof.

8. (Original) The pharmaceutical composition as defined by Claim 6, said at least one vitamin D analog compound comprising from 0.0001% to 5% by weight thereof.

9. (Original) The pharmaceutical composition as defined by Claim 6, formulated as tablets, capsules, a syrup, a suspension, a powder, granules, an emulsion, micropheres, nanospheres, controlled release lipid vesicles or polymers, a solution, a salve, a cream, a milk, an ointment, a lotion, a gel, a spray, or a swab.

10. (Original) A cosmetic composition comprising a skin/hair cosmetically effective amount of at least one vitamin D analog compound as defined by Claim 1, formulated into a cosmetically acceptable support therefor.

11. (Original) The cosmetic composition as defined by Claim 10, further comprising at least one retinoid, corticosteroid, antioxidant, α -hydroxy or α -keto acid or derivative thereof, ion channel blocker, or mixture thereof.

12. (Original) The cosmetic composition as defined by Claim 10, said at least one vitamin D analog compound comprising from 0.001% to 3% by weight thereof.

13. (Original) The cosmetic composition as defined by Claim 10, formulated as a cream, a lotion, a gel, microspheres, nanospheres, lipid or polymer vesicles, a soap, or a shampoo.

14. (Original) A regime or regimen for influencing the transactivation of vitamin D response elements in an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

15. (Original) A regime or regimen for treating a dermatological complaint, condition or affliction associated with a keratinization disorder, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

16. (Original) A regime or regimen for treating ichthyosis, an ichthyosiform state, Darrier's syndrome, palmoplantar keratoderma, leucoplasia, a leucoplasiform state, or cutaneous or mucous (buccal) lichen, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

17. (Original) A regime or regimen for treating a dermatological complaint, condition or affliction having an inflammatory immunoallergic component, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

18. (Original) A regime or regimen for treating dermal or epidermal proliferation, on an individual in need of such treatment, comprising administering to

such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

19. (Original) A regime or regimen for treating an immune dermatosis, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

20. (Original) A regime or regimen for treating a dermatological or general complaint, condition or affliction having an immunological component on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

21. (Original) A regime or regimen for treating a sebaceous function disorder, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

22. (Original) A regime or regimen for treating a cutaneous disorder caused by UV radiation, or aging of the skin, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

23. (Original) A regime or regimen for treating a cicatrization disorder or stretch marks, on an individual in need of such treatment, comprising administering

to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

24. (Original) A regime or regimen for treating an inflammatory complaint, condition or affliction, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

25. (Original) A regime or regimen for treating an ophthalmological complaint, condition or affliction, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

26. (Original) A regime or regimen for treating a cancerous or precancerous state having or being induced by vitamin D receptors, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

27. (Original) A regime or regimen for treating alopecia, on an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

28. (Original) A regime or regimen for treating an immune complaint, condition or affliction, on an individual in need of such treatment, comprising

administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

29. (Original) A regime or regimen for treating an endocrine complaint, condition or affliction, on or in an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

30. (Original) A regime or regimen for treating abnormal management of intracellular calcium, or a calcium metabolism pathology, on or in an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

31. (Original) A regime or regimen for treating a vitamin D deficiency, or a disorder of the homeostasis of minerals in the plasma and the bones, on or in an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

32. (Original) A regime or regimen for treating a complaint, condition or affliction of the cardiovascular system, in an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.

33. (Original) A regime or regimen for treating non-insulin-dependant diabetes, in an individual in need of such treatment, comprising administering to such individual, a thus effective amount of the pharmaceutical composition as defined by Claim 6.
